Thursday March 26, 2020

To our Exelta Families,

We first would like to thank you all for your patience and kindness during this uncertain time. We also wanted to take time to update you all on what Exelta's plan is going forward with COVID.

For the time being we are following the AHS and the Government of Alberta's mandatory closure of Recreational facilities to align with the Collicutt Center. However, as we have our own access point we are able to make our own closure decisions. For the time being we are closed to follow with AHS and the Alberta government mandatory closures.

We do plan to open however, only once it is safe to do so. We take the safety of our athletes, their families and all of our staff very seriously.

For anyone registered in our Recreational Spring session we have 2 plans currently.

Plan 1- we are able to start the Spring session late and will credit families for any classes missed.

Plan 2- if we are unable to run our Spring session at all we will credit families for the full amount to be used once we are safe to begin our programs again.

If you have any questions please email [info@exelta.ca](mailto:info@exelta.ca) as our phones will not be closely monitored.

We hope you all stay safe, healthy and enjoy this time with Family.

Exelta Gymnastics Club
